

## OUR COVID-19 RESPONSE

Here at Guardian Angels, we are striving to stay positive and safe during these unprecedented times. We thank our sitters and team for maintaining strength and resilience as we work together to tackle COVID-19. Below, we have included more information on how Guardian Angels is currently assisting our team and families. If you have any further questions, do not hesitate to call us for more information.

Guardian Angels is actively monitoring its team for any sickness or COVID symptoms. Our team of sitters follow all government regulations in order to keep Americans safe and healthy. We communicate closely with our families in order to ensure that neither children and parents or sitters are experiencing any virus related symptoms.

Our sitters understand their responsibility of maintaining social distancing and effective hand washing when needed. In addition to complying with shelter in place orders (only leaving home for essential reasons), our sitters wear masks and bring hand sanitizer to every shift. They understand to notify the team immediately if experiencing any symptoms in order to prevent the spread and further exposure of the virus.
